

Merit - Quality - Excellence

Registration Fee Details

Faculty: Rs. 1,000/- PKR

Students: Rs. 500/- PKR

Conference Committee

Nisar Ahmed Siddiqui

Chairperson, Director, Sukkur IBA

Zahid Hussain Khand

Vice Chairperson, Registrar, Sukkur IBA

Dr. Javed Hussain

Member, Head department of Mathematics and Social Sciences, Sukkur IBA

Organising Committee

Dr. Zarqa Bano Assistant Professor,
Department of Mathematics, Sukkur IBA

Dr. Rida-e- Zenab Assistant Professor,
Department of Mathematics, Sukkur IBA

Dr. Sidrah Ahmed Assistant Professor, Department of
Mathematics, Sukkur IBA

Registration date

To register, send an email to: **Dr. Rida-e Zenab**

secretarywim@iba-suk.edu.pk

Registration will be closed on **15 Nov 2016**

Website: wims.iba-suk.edu.pk

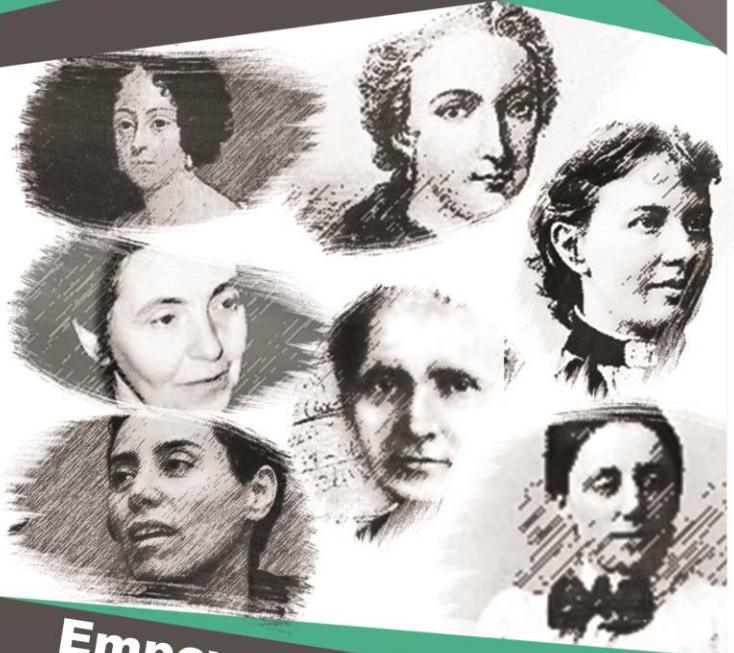

For Details

Sukkur IBA Sukkur Institute of
Business Administration

**Empowering Women in
Mathematical Sciences**

WOMEN in
MATHEMATICS
SYMPOSIUM
AT SUKKUR IBA

Sukkur Institute of Business Administration

Sukkur IBA was established in 1994 with the vision to become a world class university and mission to serve community. Sukkur IBA initially started its academic programs with affiliation of IBA Karachi till 2006. Based on Sukkur IBA's exceptional performance and some innovative programs, the Institute was awarded charter as a degree awarding institute recognized by Higher Education Commission of Pakistan. Sukkur IBA provides education in the areas of Business Administration, Engineering, Computer Science, Education and Mathematics offering degree programs from undergraduate to PhD levels.

Department of Mathematics

The Department of Mathematics, Sukkur IBA is an active centre for mathematical education and research. Dedicated faculty members conduct research in theory of semigroups, stochastic analysis, mathematical finance, fluid mechanics, numerical analysis, applied mathematics and mathematical oceanography. Along with research, the department of mathematics is dedicated to expanding both the reach of mathematical knowledge and the impact this body of knowledge has on the world. We offer a traditional undergraduate degree in Mathematics as well as a number of specialized concentrations and minors. Undergraduates have the opportunity and flexibility to experience the diverse expertise of our faculty across the spectrum of pure and applied mathematics. We help our students to overcome the challenges arising from the differences between mathematics in secondary school and at the university. We also offer MS program with focus on training students whose interested are aligned with the research strengths of the available faculty.

Women in Mathematics Symposium at Sukkur IBA

Women in Mathematics Day is an annual event celebrated internationally to encourage young female students to study mathematics. This is an international event organised by different societies such as:

- The Association for Women in Mathematics (AWM) USA founded in 1971.
- European Women in Mathematics (EWM) Association founded in 1986.
- London Mathematical Society (LMS).

Department of Mathematics, Sukkur Institute of Business Administration is going to take this opportunity for the first time in Sukkur to arrange Women in Mathematics Symposium.

The Women in Mathematics Symposium at Sukkur Institute of Business administration invites female mathematicians/students to come to Sukkur IBA and network with women from Pakistan and abroad who are active and successful in mathematics.

This event aims to

- encourage women to study mathematics
- to promote equal opportunity and the equal treatment of women and girls in the mathematical sciences
- supporting women in their careers
- promoting scientific communication
- giving prominence and visibility to women mathematicians
- spreading their vision of mathematics and science

This event is open for female academicians working in mathematics as well as female students who wish to pursue studies in mathematical sciences. The event includes invited talks from keynote national and international speakers, who will share their research and work experience being a female mathematician. We also welcome early career researchers to present their research in this event. Therefore women who have PhD in mathematics are encouraged to submit their abstracts for a 20 minutes talk. There will also be a poster competition among research students and first three best posters will get award. So we encourage female postgraduate students (MS/M.Phil/PhD) for poster presentation of their research work.
